

21<sup>st</sup> September 2017

Dear Parents/Carers,

This year in KS2 (Years 3 to 6) we will be continuing to use Accelerated reader, this scheme will incorporate a range of well - known books, which will entertain and enthuse your child. Children will choose from a range of books closely matched to their reading ability.

Once your child has read their book they will undertake an online quiz at school to show how well they know the book they have read. The quizzes are quick, fun and, so far, have really engaged the children.

We will be monitoring what the children have read and the frequency in which they have read so that all children can reach their potential.

We would encourage your child to try to read on a regular basis because reading is an essential life skill and the more they practise the better they will become. It is incredibly beneficial to hear your child read aloud and question them on what they have read, this will help them to develop a greater understanding and love of reading.

Please could you also ensure that you sign the reading record book and write any things that you have noticed with your child's reading at home so that we can support them greater at school.

Thank you for your continued support

Phil Page  
Class Teacher & English Coordinator
