

SILEBY REDLANDS RE OPENING RISK ASSESSMENT

Activities Covered by this Assessment	Autumn Term 2021 – School activities during COVID 19 outbreak at Government Roadmap Step 4		
	<ul style="list-style-type: none"> During this evolving situation please monitor and follow government guidance given in the web links provided All normal working practices should be assumed to continue unless they need to be changed for the duration. 		
Location	Sileby Redlands Community Primary School	Organisation	DISCOVERY
<p>Note: A person specific assessment must be carried out for young persons, disabled staff and new and expectant mothers if appropriate</p> <p style="text-align: center;">This risk assessment has been developed in conjunction with LTS and Leicestershire County Council and has been adapted to include</p> <p style="color: red;">Schools should retain previous versions of risk assessments as the DfE have indicated that schools may be asked to reinstate controls in the event of a local outbreak. These reinstatements are envisaged to be of short duration but may mean that there are frequent changes required. All reinstatements should be on the advice of public health (PH) and schools should tailor any risk assessment reviews to PH advice.</p> <p style="color: red;">This risk assessment template is designed to address the covid controls during the normal day to day operation of a school in step 4 – Guidance found here.</p> <p>Brief summary of changes for schools in Step 4</p> <p>From 1st December:</p> <ul style="list-style-type: none"> Re-introduction of face coverings in communal areas Risks and Control Measures pertaining to the KS1 Nativity <p>From 16th August:</p> <ul style="list-style-type: none"> Close contacts of a confirmed case under 18 (18yrs + 4 months) will no longer be required to self-isolate. However, they will be <u>required to engage with test and trace and take a PCR test.</u> <p>Schools should continue to:</p> <ul style="list-style-type: none"> Exercise good hand hygiene. Exercise good respiratory hygiene, catch it, bin it, kill it principles. Use ‘enhanced cleaning’ regimes, particularly on frequently touched surfaces (record cleaning routines daily and sign off weekly). Maintain good ventilation in occupied parts of the school, balancing ventilation with thermal comfort. Use PPE where appropriate to their setting or activity (link). 			

SILEBY REDLANDS RE OPENING RISK ASSESSMENT

- Have systems in place to encourage all who have symptoms of covid to self-isolate (including household siblings), engage with test and trace and follow PH advice.
- Engage with regular testing 3 days prior to the start of the autumn term. (to be reviewed Sept 2021)

Schools will be required to have an Outbreak Management Plan for Covid 19

Outbreak Management: From Step 4, close contacts will be identified via NHS Test and Trace (not by schools). Schools will be required to operate an 'Outbreak Management Plan'. Schools may be contacted in exceptional cases to identify close contacts, as currently happens in managing other infectious diseases. Schools will continue to have a role in working with health protection teams in the case of a local outbreaks. Schools should ask parents and staff to inform them **immediately** of the results of a test and then they must follow: [‘stay at home: guidance for households with possible or confirmed coronavirus \(COVID-19\) infection’](#)

PPE:

Face coverings are not classified as PPE (personal protective equipment). PPE is used in a limited number of settings to protect wearers against hazards and risks, such as surgical masks or respirators used in medical and industrial settings. A face covering is a covering of any type which covers your nose and mouth.

The majority of staff in education, childcare and children’s social care settings will not require PPE beyond what they would normally need for their work, even if they are not always able to maintain a distance of 1+ metres from others. Guidance found [here](#).

Additional PPE for coronavirus (COVID-19) is only required in a very limited number of scenarios, for example, when:

- a pupil becomes ill with coronavirus (COVID-19) symptoms, and only then if a 1+ metre distance cannot be maintained
- performing aerosol generating procedures (AGPs)

When working with children and young people who cough, spit or vomit but do not have coronavirus (COVID-19) symptoms, only any PPE that would be routinely worn, should be worn. The [guidance](#) on safe working in education, childcare and children’s social care provides more information about preventing and controlling infection. This includes:

- when and how PPE should be used
- what type of PPE to use
- how to source it

Face Coverings:

~~From 19 July, in line with Step 4 of the roadmap, face coverings will no longer be recommended for pupils in classrooms or communal areas in all schools. Face coverings will also no longer be recommended for staff in classrooms.~~

From 1st December, the re-introduction of face coverings in corridors and crowded areas.

SILEBY REDLANDS RE OPENING RISK ASSESSMENT

Headteachers will have the discretion to decide whether to ask staff and visitors to wear face masks/coverings as further precautions to help minimise the risk of infection in schools and will develop risk assessments with appropriate measures.

The reintroduction of face coverings for pupils, students or staff may be advised for a temporary period in response to particular localised outbreaks, including variants of concern. In all cases, any educational drawbacks should be balanced with the benefits of managing transmission. The Local Action Committee structure (bronze/silver/gold) should be used in such circumstances to re-introduce the use of face coverings. Immediate outbreak response (at the level of individual settings or a cluster of settings) remains for **local directors of public health** to advise on.

Domestic residential educational visits:

Any domestic and international residential educational visits must be conducted in line with relevant COVID-19 guidance and regulations in place at that time and for the country you are visiting. For international trips the foreign and commonwealth office (FCO) should be consulted before any trip is considered. *(For **international visits** school will need to be mindful of the restrictions still in place regarding the red, amber and green list and be mindful that for amber countries there may be requirements for all participants to quarantine or self-isolate upon return).* Schools will also need to be mindful to check their insurance status for short notice cancellation. For guidance refer to gov.uk or <https://oeapng.info/>

Rapid Result Tests (Lateral Flow Device Tests)

Rapid Result Testings (Lateral Flow Tests) should continue to be conducted twice weekly of staff in order to help detect those who are carrying the Covid 19 virus without displaying symptoms. Lateral Flow Tests are undertaken at home, ideally in the morning prior to leaving for work but can be done the evening before. Home tests are taken 3-4 days apart and staff participating report all test results to Track and Trace as per guidance. *Although encouraged and prior consent is required, this testing is voluntary.*

Headteachers actively consult with staff on local setting measures, inviting feedback to develop practice and health and safety measures, that where reasonably practicable, protect the whole school community. Individual risk assessments are developed for all colleagues and pupils that require one. This includes pregnant women, BAME and Clinically Vulnerable / Clinically Extremely Vulnerable.

Monitoring and review of risk controls

It is important that employers know how effective their risk controls are. You should monitor and review the preventive and protective measures regularly, to ensure the measures are working, and taking action to address any shortfalls. Please contact the central team for further guidance as required.

During this activity, what could go wrong resulting in an emergency situation?	<ol style="list-style-type: none"> 1. Child displays symptoms with CV19 2. Child from teaching group who has been sent home becomes confirmed case. 3. Staff becoming ill and self-isolating.
How could this emergency situation be prevented / controlled?	<ol style="list-style-type: none"> 1. Isolate child until collected.

SILEBY REDLANDS RE OPENING RISK ASSESSMENT

	<ol style="list-style-type: none"> 2. All children in that teaching group to be sent home and told to self-isolate for 10 days. 3. Follow self-isolating guidance, ensure that reporting of illness procedures well understood.
Who should respond to a potential emergency situation and how? Have staff been trained to respond to this emergency situation?	<ol style="list-style-type: none"> 1. Staff to supervise child until collected where 2m rule cannot be implemented PPE to be worn. 2. Make staff aware of guidance in link below, develop guidance on internal monitoring of staff and pupils on self-isolation and student attendance recording. 3. Follow guidance: https://www.gov.uk/government/publications/coronavirus-covid-19-implementing-protective-measures-in-education-and-childcare-settings/coronavirus-covid-19-implementing-protective-measures-in-education-and-childcare-settings Consider reallocating staff or capacity of school to remain open. Consult Trust on closure and inform LEA.
Could any non – routine changes affect the safety arrangements in place for this activity? (E.g. weather, people, equipment etc.) What can be done?	Additional pupil numbers in phase 2 and 3 – review procedures and social distancing, refer to any new government guidance.

SILEBY REDLANDS RE OPENING RISK ASSESSMENT

Potential Severity of Harm	High Death, paralysis, long term serious ill health.	Medium	High	High
	Medium An injury requiring further medical assistance or is a RIDDOR incident.	Low	Medium	High
	Low Minor injuries not resulting in any first aid or absence from work.	Low	Low	Medium
		Low The event is unlikely to happen.	Medium It is fairly likely to happen.	High It is likely to happen.
Likelihood of Harm Occurring				

Risk Rating Definitions	
Low	This is an acceptable level of risk. No further controls are required as the risk rating cannot be reduced any further. However, it is advised that continual monitoring occurs in order to ensure that no changes / deviation of control measures occur.
Medium	It is advised that further controls are implemented to reduce the risk rating to as low a level as possible. If the risk cannot be reduced to lower than a medium, then on site monitoring should occur to ensure that all stipulated controls are being adhered to.
High	This is an unacceptable risk rating. Urgent interim controls should be implemented to reduce the risk so far as is reasonably practicable. If the risk rating cannot be reduced to lower than a High , then a documented safe system of work should be implemented to control the activity. It may be necessary to seek further professional advice. Serious considerations should be given to the validity of carrying out the activity at all. Regular monitoring of the activity should occur.
